DEPARTMENT OF COMMERCE AND INDUSTRY.

EXPLOSIVES.

Calcutta, the 3rd December 1908.

No. 10247-28.—In accordance with the provisions of section 19 of the Indian Explosives Act, 1884 (IV of 1884), and of the Notification of the Government of India in the Home Department, No. 1464, dated the 2nd September 1907, the Governor General in Council is pleased to publish for general information the following amendments which His Excellency in Council, in exercise of the powers conferred by section 5 of the said Act, proposes to make in the rules regulating (1) the manufacture, possession and sale of explosives, and (2) the transport and importation of explosives, published with the Notifications in this department, Nos. 9045—8 (Explosives) and 4555—4 (Explosives), dated the 20th November 1906 and the 31st May 1907, respectively.

The draft will be taken into consideration by the Governor General in Council on the expiration of two months from the date of publication of this notification in the *Gazette of India*.

DRAFT AMENDMENTS.

1. RULES FOR THE MANUFACTURE, POSSESSION AND SALE OF EXPLOSIVES, ISSUED WITH THIS DEPARTMENT NOTIFICATION No. 9045—8, DATED THE 20TH NOVEMBER 1906.

(*a*) Delete the figure '5' from the second line of rule 9 (2).

(*b*) Delete sub-clause (ix) of rule 11 (3).

(*c*) Delete clause (4) of rule 14.

(*d*) In clause (5) of rule 14 insert the word 'or' before the words "Form D," and delete the words "or Form F."

(*e*) After rule 14 add the following as rule 14-A :—

Grant of licenses to contractors, cultivators or other persons to possess explosives for *bond fide* blasting purposes.

"14-A (1) Licenses may be granted to contractors, cultivators or other persons to possess at the same time not more than 100 lbs. of gunpowder, 10 safety fuzes and 10 lbs. of other explosives when the same are proved to the satisfaction of the officer granting the license to be required *bond fide* for blasting purposes.

(2) Licenses under this rule may be granted in a Presidency town or its suburbs or in Rangoon by the Commissioner of Police and elsewhere—

(*a*) when only gunpowder and fuzes are to be possessed, by any Magistrate of the first class or by a Magistrate of the second class specially authorised by the District Magistrate in this behalf;

(*b*) when other explosives are to be possessed, by the District Magistrate.

Every such license shall be in Form E in the schedule hereto annexed and shall contain the conditions prescribed therein."

(*f*) Add the following proviso after rule 16 (1):—

"Provided that if any magazine from which supplies of explosives can be obtained and which is licensed under rule 17 exists within a distance of ten miles from the place approved by the licensing officer under this rule, the quantity of explosives which may be possessed shall not exceed 25 pounds."

(*g*) Substitute the following for rule 28 (2):—

"(2) no fee shall be charged for licenses granted to contractors, cultivators or other persons under rule 14-A."

(*h*) In Form E—

(i) For "rule 14" at the top of the Form substitute "rule 14-A."

(ii) For the words "Fee—eight annas in stamps" substitute the words "Free of charge."

(iii) Alter the heading of the form to read—

"License to possess gunpowder, safety fuzes or other explosives required *bond fide* for blasting purposes."

(iv) Alter the sub-heading of the form within brackets to read—

"(Granted in a Presidency town or its suburbs or in Rangoon by the Commissioner of Police, and elsewhere by the District Magistrate. If gunpowder and fuzes only are to be possessed, the license may be granted by any Magistrate of the first class or by a Magistrate of the second class specially authorised by the District Magistrate in this behalf."

(v) In column 4 delete the word "and" after the word 'gunpowder" and insert the words "and 10 lbs. of other explosives" after the word "fuzes."

(vi) In condition 2 substitute the words "a distance of 50 yards" for the words "the prescribed distances" and eliminate the footnote

(vii) In the proviso to condition 2 omit the word "and" after the word "gunpowder" and insert the words "and 10 lbs. of other explosives" after the word "fuzes"; also substitute the word "explosives" for the word "explosive".

(viii) Add the following as condition 6, and renumber the existing condition 6 as condition 6:—

"6 All explosives, other than gunpowder and safety fuzes, exceeding one pound in quantity shall be kept in a substantial case, bag, canister or other receptacle made and closed so as to prevent the explosive from escaping."

(ix) Insert the following on the back of the Form:—

ENDORSEMENT FOR TRANSPORT OF GUNPOWDER, FUZES OR OTHER EXPLOSIVES.

(SEE RULE 6-A-VIII OF THE RULES FOR THE TRANSPORT AND IMPORTATION OF EXPLOSIVES PUBLISHED WITH THE NOTIFICATION OF THE GOVERNMENT OF INDIA IN THE DEPARTMENT OF COMMERCE AND INDUSTRY, No. 4555-4, DATED THE 31ST MAY 1907.)

(*To be made by the licensing authority or by a Magistrate.*)

The holder of this license is permitted to transport explosives according to the entries made below and subject to the undermentioned conditions:—

Quantity of explosives to be transported.	Place of despatch.	Route.	Destination.	Mode of transit.	Time during which transport must be completed.	Signature of Magistrate and date.

Conditions as to transport

1. The license in Form E becomes void, if the time occupied in transit exceeds the period specified, or if the consignment breaks bulk before reaching the place of destination, or if the articles are taken by any other route than that specified in the endorsement.

2. The contents of each package in transit must be described in legible characters on the outside of such package.

3. Where transport takes place by cart, the person in charge of such cart shall not smoke nor permit smoking on or dangerously near the same.

4. Notwithstanding any endorsement on the license made by a Magistrate authorising the licensee to transport gunpowder, fuzes or other explosives, the total quantity of gunpowder, fuzes or other explosives that may be possessed, whether in transit or otherwise, shall not at the same time exceed the quantity for which the licensee is valid."

(*i*) In Form E add the following as condition 8:—

"8. All losses or thefts shall be reported without delay to the nearest police station."

(*j*) In Form J add the following as conditions 15 and 16:—

"15 The licensee shall, at his own expense, provide for the safe custody of the magazine, a guard which shall be of such strength as the District Magistrate may consider to be sufficient."

"16. All losses or thefts shall be reported without delay to the nearest police station."

II. RULES TO REGULATE THE TRANSPORT AND IMPORTATION OF EXPLOSIVES, ISSUED WITH THIS DEPARTMENT NOTIFICATION No. 4555-4, DATED THE 31ST MAY 1907.

(a) Below the heading "Transport" add the following as rules 8-A and 8-B :—

"8-A. (1) Explosives required for blasting purposes shall not be transported by holders of licenses granted in Form F, Form J, or Form E, contained in the Schedule to the Rules for the manufacture, possession and sale of explosives published with the notification of the Government of India in the Department of Commerce and Industry, No. 9045-8, dated the 20th November 1908, except under and in accordance with the conditions of a license to transport the same.

Licenses for transport.

(2) The following general rules shall be observed with respect to the grant of such licenses :—

I. Any such person may be granted a license for the general transport of explosives required for blasting purposes for any term not exceeding one year. The license shall be issued free of charge and shall be in Form II appended to these rules.

II. A license under Rule I shall be granted in a Presidency town or its suburbs or in Rangoon by the Commissioner of Police, and in any other place by the Magistrate of the district.

No such license, having effect beyond the local limits of the authority of the officer granting it, shall be granted for the transport of such explosives—

(a) to any Native State in India, without the consent of the Political Agent for such State ;

(b) to any Presidency town or its suburbs or Rangoon, without the consent of the Commissioner of Police ; or

(c) to any other place in British India, without the consent of the Magistrate of the district.

III. Every person who wishes to obtain a license under Rule I shall apply in writing the authority empowered to grant such license, and shall furnish particulars as to the place from which, and the place or places to which, he desires to transport explosives.

Where the grant of the license requires the consent of some other authority specified in Rule II, the application shall state whether such consent has been obtained, and if so, shall be supported by evidence thereof.

IV. When the place or places to which explosives are to be transported are outside the local limits of the authority of the officer granting the license, a copy of the license shall be forthwith sent—

(a) when the transport of explosives is authorised to a Presidency town or to Rangoon, to the Commissioner of Police ;

(b) when the transport of explosives is authorized to any other place, to the Magistrate of the district in which such place is situated.

V. The license shall entitle the licensee to issue passes for the transport of explosives required for blasting purposes from the place from which the explosives are to be transported as entered in the license, to any place or places to which the explosives may be transported as entered in the license, subject to the conditions mentioned in the license.

VI. The pass issued under Rule V shall accompany each consignment of explosives transported.

In the case of explosives transported by rail, the pass shall be attached to the way-bill or invoice, as the case may be.

VII. A copy of every pass issued under Rule V shall be forthwith sent to the licensing authority, and in cases where the explosives are being transported to a place beyond the local limits of the authority of the officer who has granted the license, to the Magistrate of the district in which such place is situated, or if such place be in a Presidency town or Rangoon, to the Commissioner of Police.

VIII. The holder of a license in Form E of the rules for the possession of explosives shall not be required to take out a separate license for the transport of gunpowder, fuzes or other explosives covered by such license. He shall on each occasion when he transports gunpowder, fuzes or other explosives present the license in Form E to the licensing authority or to the nearest Magistrate, who shall endorse thereon particulars as to—

(1) the quantity of gunpowder, fuzes or other explosives to be transported ;
(2) the place of despatch ;
(3) route ;
(4) destination ;
(5) mode of transit ; and
(6) the time during which transport must be completed ;

and shall attach his signature to the same."

"8-B. Whoever transports an explosive required for blasting purposes in contravention of the foregoing rules or commits a breach of any condition subject to which such transport is permitted shall be punishable with a fine which may extend to one thousand rupees.

Penalty.

(b) In rule 17 for the words "Form A" substitute the words "Form I."

(c) In rule 26 for the words "Form A" substitute the words "Form I"

(d) In rule 32 insert the words "or to transport" after the words "licensed to import" in line 1 and add the following at the end of the rule :—

"but no fee shall be charged in the case of a transport license granted under rule 8-A."

(e) In rule 35 insert the words "or pass" after the word "license" in two places.

(*f*) After rule 35 insert the following as rules 35-A and 35-B :—

Renewal of transport licences.

"35-A. Every license to transport explosives may, at its expiration and subject to the same conditions (if any) as to consent of any other authority, be renewed by the authority who granted it."

Discretion of authority empowered to grant transport licences.

"35-B. Every authority empowered to grant or renew a licence or to give his consent to such grant or renewal may, in his discretion —

(*a*) refuse to grant or renew such license or to give such consent, or

(*b*) refer the application for orders to the Government (if any) to which he is subordinate."

(*g*) Renumber "Form A" as "Form I".

(*h*) In condition 3 of license Form I insert the words "rule 8-A of these rules or" after the "in accordance with" in line 3; also insert the words "as the case may be" after the words "(XI of 1878)" in line 4.

(*i*) After Form I add the following as Form II :—

"FORM II.

REVENUE DEPARTMENT.

Fort St. George, January 4, 1909.

The following memorandum of the Government of India is republished :—

DEPARTMENT OF REVENUE AND AGRICULTURE.

MEMORANDUM ON THE METEOROLOGY OF INDIA DURING OCTOBER AND NOVEMBER 1908, WITH A DISCUSSION OF THE CONDITIONS AFFECTING THE RAINFALL IN NORTHERN INDIA AND THE SNOWFALL ON THE NEIGHBOURING MOUNTAIN AREAS DURING THE COLD WEATHER OF 1908–1909.

METEOROLOGY OF INDIA DURING OCTOBER AND NOVEMBER 1908.

1. *October*—

(a) At the commencement of the month a shallow depression was passing northeastwards through the Punjab and was giving moderate precipitation in Kashmir. The disturbance had disappeared by the morning of the 2nd. In the absence of observations from the region to the west of upper India it is not possible to trace the origin of this depression, but it probably travelled from the west and was of a type which, although common during the winter season, is very exceptional in the early part of October. It was also remarkable in that snowfall occurred at so low an elevation as about 8,000 feet in Kashmir.

(b) During the first nine days the trough of low pressure ran north and south over northeast India and the Bay, with the result that rainfall was confined to Assam, Burma and the coast districts. The position of the trough ordinarily changes by a large amount during the first half of October, but in the present year the changes were remarkably rapid and the field of the Bay current was much more restricted than usual.

(c) The pressure distribution underwent a large change on the 10th and 11th, and during the following four days it was such as is associated with the prevalence of general dry weather over the Indian region with the exception of Tenasserim. On the 16th a depression appeared over the Andamans and, advancing very slowly across the Bay, was shown off the south Coromandel coast on the 21st; up to this date little rain had occurred. From there the disturbance moved westwards and had past out into the extreme southeast of the Arabian Sea by the 24th. Very little information is as yet available for the Arabian Sea, and it is not now possible to trace the further career of the depression. From the report of the mail steamer *Arcadia* which encountered very stormy weather in the centre of the Arabian Sea on the 28th and 29th, it would appear that the disturbance was travelling along a curved path towards the coast of Arabia and that it had intensified considerably during its passage over the Arabian Sea. Altogether this was a very remarkable storm. It seems to have originated in the Gulf of Siam and to have travelled by an unusually southerly course across the Bay into the Arabian Sea. It is one of the longest lived storms on record and was instrumental in determining a prolonged burst of rain to the southern half of the Peninsula.

(d) The extremely southward position of the area of low pressure in the Bay during the last eleven days was more nearly that of December, when the monsoon current finally retreats, than that of October; and it was owing to this that the rainfall due to the Bay monsoon current was almost confined to the south of the Peninsula.

(e) The character and distribution of rainfall were determined by the early retreat of the monsoon currents from the east of the Gangetic plain and the Central Provinces, and by the abnormally southerly path of the disturbance of the last fortnight. The precipitation of the month was accordingly in excess only in Burma and Madras, and in defect over the remainder of the country with the exception of northwest India where little or no rain is received even under normal conditions. Over the greater part of the region of scanty rainfall the deficiency was more than 50 per cent. in amount, and was absolutely greatest in Hyderabad and the Central Provinces, Central India, Bombay and the United Provinces, which received only from 5 to 21 per cent. of their normal amounts. Weather was, as is ordinarily the case, dry throughout the month in Baluchistan but it was more unsettled than usual in Kashmir.

The rainfall of the country as a whole was 1·2" or 36 per cent. below the normal.

(f) The air was dumper than usual in the plains of northwest India, the cause being the excessive precipitation of August and September; humidity was on the other hand very much in defect in Bengal, the United Provinces and the Central Provinces. Skies were covered to about the usual extent except in northwest India and Mysore, where the proportion of cloud was unusually low. Temperature was approximately normal in almost all parts of the country.

2. *November*—

(a) Weather was more or less unsettled in the Bay during the first twelve days owing to the formation of three disturbances. The first of the series appeared over the southwest of the Bay on the 1st, but failed to develop into a storm and had disappeared entirely by the 5th after having given moderate to heavy rain on the Coromandel coast and few falls in the rest of south India. The second disturbance appeared in the east of the Bay and gave nearly general rain in upper Burma from the 3rd to 5th, but like its predecessor it did not give rough weather in the Bay. The last of the series was shown as a well defined depression over the Andamans on the 6th. It advanced northwards growing rapidly in intensity and on the early morning of the 12th crossed the Arakan coast near Akyab where it did considerable damage to the port. It was the cause of nearly general rain in Burma during its existence.

(b) During the remainder of the month there was a tendency to the establishment over the Bay of the pressure distribution characteristic of December, with the result that there was practically no rain either in Burma or Madras. At the end of the month weather was becoming disturbed again over the Bay owing to the appearance over the Andaman Sea of a depression from the east.

(c) Weather was drier even than usual over northern India, although a few falls of rain occurred in the submontane and hill districts of the Punjab on the 26th owing to a very ill-defined disturbance in northwest India; very slight snow also fell two days later in parts of Kashmir and perhaps also of the Punjab Himalayas.

(d) Weather was less disturbed than usual throughout the country, with the exception of Burma and Eastern Bengal where the total rainfall of the month was in excess by 305 and 10 per cent. respectively. Little or no rain fell over northern and central India, Bombay, Hyderabad and Mysore, and only moderate rain in Madras: the deficiency was not, however, large in amount except in Mysore and Madras which ordinarily receive heavy rain during the month.

(e) On the average of the whole country rainfall was in defect by 3 per cent. of the month's normal amount.

(f) Scarcely any rain fell over the greater part of Persia: the deficiency amounted to 1·6" or 92 per cent. at Bushire.

(g) As might be expected from the character of the weather, humidity and the amount of cloud were low over a large part of the country: a significant exception occurred however in northwest India, where in the plains, in spite of the prevalence of dry weather, humidity was very high owing mainly to heavy monsoon precipitation. Temperature agreed well with the normal, the divisional departures in all cases being within 1½° of it.

3. The following table gives information regarding the rainfall as obtained from the data of the Indian Daily Weather Report for the period from 1st October to the 30th November:—

CONDITIONS LIKELY TO AFFECT THE PRECIPITATION OF THE APPROACHING COLD WEATHER.

4. Among the chief features of the air movement in the Indian region are the occasional currents near the equator, and of these the only indications now available are those derived from the rainfall at Zanzibar and Seychelles which can only represent the large area in question with considerable inaccuracy.

5. Precipitation of October and November in the regions to the west and north of India :—

(*a*) According to telegraphic information the first heavy rainfall of the winter occurred at Kermanshah, in west Persia, on the 16th of November, which is about the normal date, and was accompanied by snowfall on the neighbouring mountains. On the whole the weather in Persia was drier than usual.

(*b*) In Baluchistan there was absolutely no precipitation.

(*c*) There was slight snowfall on the highest peaks of the Safed Koh on the 13th of October and again on the 19th and 25th November, while some snow fell also in the Afghan and Kafiristan mountains. Weather is dry and skies are clear.

(*d*) Occasional snowstorms occurred in the mountains of Kashmir during October and November, but recently a change has taken place and weather is now dry and frosty. The Banihal pass is closed. In Ladak there was general snowfall on the 27th and 28th November; the fall on these dates measured 5 inches in depth at Leh.

(*e*) No information is available at present for the Punjab Himalayas, but so far as can be judged from the condition of the mountains visible from Simla the snowfall during the past two months has been lighter than usual and the snowline is by no means low.

(*f*) The climatic conditions at Gangtok in Sikkim are normal, and the weather dry and cold; there have been the customary occasional slight falls of snow at elevations over ten thousand feet.

6. Some idea of the extent to which the present atmospheric conditions are favourable for precipitation may be derived from a knowledge of the differences between the pressures as given by hill stations and stations in the plains below them, together with the corresponding temperatures. The following table gives the mean departure from normal during November of these pressure differences :—

Baluchistan.	Kashmir.	Central Himalayas.
−·007	+·013	+·005

The mean of these differences is +·004", and the mean of the departures from normal during November of the corresponding air temperatures is −0·8° F.

7. An examination of the following table of departures from normal will show the extent to which the preceding data may be relied upon as giving indications of the character of the precipitations of the ensuing cold weather :—

8. Of the factors given in the previous table a deficiency of rainfall at Zanzibar and Seychelles tends to be followed by a deficiency of winter rainfall; in the present case this evidence as to the seasonal movement in the equatorial region is conflicting, and no inference can be drawn in either direction.

9. The effect of the pressure and temperature conditions of the hill stations of upper India is believed to be proportional to the quantity in the fifth column which this year indicates the likelihood of a normal winter.

10. Perhaps the most reliable inferences may be drawn from the lateness or earliness of the setting in of the cold weather conditions in the hill regions of Persia, Baluchistan and Afghanistan, and in the Himalayas, the association being of lateness with deficient winter precipitation, and of earliness with abundant rain and snow. Further it may be inferred from the information now available that the conditions in question are normal, or perhaps slightly less advanced than usual.

11. Summing up, it may be said that, of the three factors which appear to be most important, the subequatorial rainfall and the air data at the hill stations would lead to an anticipation of normal conditions, while the time of setting in of the cold weather points to a winter whose severity is normal or only very slightly below it.

INFERENCE.

The conditions which appear to have most influence upon the character of the approaching cold weather are this year very nearly normal, and it is therefore probable that the amount of rainfall in northern India and of snowfall on the neighbouring mountain areas will, at any rate during the earlier part of the season, approximate closely to the average.

GOVERNMENT EXAMINATIONS

GOVERNMENT TECHNICAL EXAMINATIONS—APRIL 1909.

NOTICE REGARDING PERMISSION TO APPEAR.

It is hereby notified that the following candidates for the ensuing Technical Examinations to be held in April next *are not required* to obtain the previous permission of the Commissioner to apply for admission to the examinations :—

I. For the Elementary Grade—

(1) Candidates who have passed the late Middle School Examination or the compulsory portion of the late Lower Secondary Examination.

(2) Candidates who have not passed as above but are reading in the Fourth or any higher form in a *recognised* high school, or who have completed, as pupils or otherwise, the course of instruction prescribed for the Third or any higher form, *provided* that, in the former case, they submit along with their applications for admission to the examination a certificate * to the effect that they are pupils of the Fourth or Fifth or Sixth Form from the headmaster of the school to which they belong, and in the latter case a certificate * from the head of a *recognised* college or high school or from an Inspecting officer of the Educational Department not below the rank of Sub-Assistant Inspector to the effect that their qualifications are up to or above the Lower Secondary Standard. In the case of candidates, however, who having completed the Third Form course as pupils of a recognised Lower Secondary School, were found fit, after a careful examination, for promotion to the Fourth Form, a certificate * to that effect from the headmaster of the school concerned will be accepted.

II. For the Intermediate Grade—

(1) Candidates who have passed the Matriculation Examination or the compulsory portion of the Upper Secondary Examination.

(2) Candidates who have not passed as above but have passed the Elementary Examination in the particular subject for which they wish to appear.

III. For the Advanced Grade—

Candidates who have passed the Matriculation Examination or the compulsory portion of the Upper Secondary Examination.

[*N.B.*—Candidates for the Advanced Examination in any subject who have not passed the tests specified above should apply for the necessary previous permission even though they may have passed the Intermediate Examination in that subject.]

IV. For any grade—Elementary, Intermediate or Advanced—

(1) Employés under Government, Local Boards, Municipal Councils, Mercantile Firms, etc., who do not possess the required General Education qualifications but are required to pass in any of the subjects included in the notification, *provided* they submit along with their applications for admission to the examination a certificate * from the head of the office in which they are employed to the effect that they are required to pass in that subject, the grade being specified in the certificate.

(2) Candidates who do not possess the required General Education qualifications but once appeared and failed in a particular subject for a particular grade, or were once permitted to come up for a particular subject and for a particular grade, *provided* that they are appearing in the same subject and for the same grade, and that in the former case, they quote in their *applications for admission to the examination* the year in which they failed and the examination centre at which they appeared, and in the latter case, the number and date of the order of the Commissioner granting them permission.

(3) Pupils of a *recognised* Technical school or class, *provided*—

(a) they are certified by the head of the institution to which they belong to have completed the prescribed course in the subject and for the grade, and

(b) the school or class is recognised by the Director of Public Instruction, Madras, for that subject and grade.

* The certificates should be submitted in *original* and will under no circumstances be returned.

2. All *other* candidates who do not come under any of the above heads should obtain the previous permission of the Commissioner and should accordingly submit their application for permission on or before the 18th January next in the annexed form, submitting along with such application a certificate* from the head of a recognised college or high school, or an Inspecting officer of the Educational Department not below the rank of Sub Assistant Inspector as regards their general education attainments and another certificate* from a competent person to the effect that their knowledge of the particular technical subject taken up, is up to the standard of the grade for which they wish to appear. The applications should be made out clearly in English. No printed copies of the form are available.

* Candidates coming up in Botany (special) should state in their applications whether they bring up this subject as one of the subjects required for the Diploma for Chemists and Druggists.

† The examinations in Book-keeping, Banking, Commercial Geography, Shorthand, and in Type-writing (Elementary and Intermediate grades) will be conducted according to the syllabuses revised up to 17th June 1905.

‡ The syllabus for "Commercial Correspondence," has been replaced by the syllabus for "Theory and Practice of Commerce."

§ Candidates coming up in Shorthand will be allowed to transcribe their shorthand notes with a typewriter. They must bring with them their own type-writers for this purpose.

‖ Candidates coming up in Type-writing must bring with them their own type-writers—the Remington, Yost, New Century, Smith Premier, Densmore, Empire or Underwood machines. The candidates will be examined in *batches*, but at least every *five* candidates for the *Elementary* grade, at least every *four* candidates for the *Intermediate* grade and at least every *three* candidates for the *Advanced* grade must have one machine among them.

3. The following are the centres at which the *Written* examinations will be held in the above subjects:—

Arni.	Levedale (Ootacamund)	Salem
Bangalore.	Madras.	Tanjore
Bellary.	Madura.	Tinnevelly.
Bezwada.	Mangalore.	Tirupati.
Calicut.	Masulipatam.	Trichinopoly.
Chicacole.	Mysore.	Trivandrum.
Coimbatore.	Nazareth	Vizagapatam.
Kumbakonam.	Pudukkottai.	
Kurnool.	Rajahmundry.	

N.B.—Should the number of candidates who have applied to be examined at any one of the above centres fall short of *thirty*, the candidates that selected that centre must be prepared to proceed, at their own expense, to the nearest centre where the examination may be held. Timely notice will be given to the candidates concerned.

3. No notice will be taken of the application of any candidate who selects a centre which is not in the above list, and no candidate will be allowed to name more than one centre. No candidate will on any account be allowed to change the place of examination entered in his application, which must invariably be the place where he is employed or ordinarily resides, or should it not be a centre, the place nearest to it where the examination is held. A candidate appearing for examination at a centre other than the one mentioned by him in his application must be prepared to have his examination cancelled.

4. In addition to the above centres, the Commissioner will be prepared to arrange for the holding of the *Written* examination in any of the subjects mentioned at any other place, if he is satisfied that not fewer than *thirty* candidates are likely to offer themselves for examination, and it is advisable to make such place a centre. Applications for the inclusion of such place or places in the list of centres should be made to the Commissioner through the local educational or other authorities concerned before the 20th January. Ordinarily, however, only one place will be constituted a centre for each district.

5. The oral and practical examinations in such subjects as require them will be held at those places only where satisfactory arrangements can be made for the conduct of such examinations.

N.B.—*To guard against disappointment in the case of such of the Oral and Practical examinations as may be held before the Written examination, candidates are recommended to refer to Part I-B of the* Fort St. George Gazette *from time to time.*

6. Candidates whose examinations, either written or oral and practical, cannot be arranged for at any place must, *at their own expense*, proceed to Madras or to the nearest centre where they are held in the subjects in which they appear.

7. Heads of institutions are requested to see, before the certificate at the foot of the application is signed by them, that their institution has been recognised by the Director of Public Instruction, Madras, as fitted to impart instruction in the *Technical* subjects and for the grades in them brought up by their *pupils*.

N.B.—Heads of institutions recognised for *General Education only* should not sign the certificate at the foot of the application form filled in by any of their pupils coming up for any of the Technical examinations.

8. All pupils coming up from the same institution must select the same centre, and the applications of all of them should be forwarded together (along with a covering letter stating the number of applications) by the head of that institution, no applications of any *private* candidates being enclosed with these applications.

9. Each candidate must, wherever the syllabus requires it, submit, *before the 31st January*, the necessary drawings, plans, surveys, field books, estimates, or other "certified works". Each of the drawings, etc., submitted must have entered on it the name of the candidate, the subject and grade of examination for which he appears and the centre at which he appears, and must be certified to be his own unaided work by the head of the institution or office to which he belongs, by an officer of the Public Works Department not below the rank of supervisor, by a District Board Engineer, by the Engineer of the Corporation of Madras, or by an Engineer of any Railway Company.

Candidates are specially warned that no certified works will be valued by examiners unless the certificate of authorship is in each case quite satisfactory, and specifies clearly the period of time occupied in the execution of each work and unless the examiners are satisfied as to the identity and qualifications of the persons granting the certificates. Further, if any suspicion attaches to any certified works submitted by pupils from Technical Schools, the Commissioner will be compelled to recommend to the Director of Public Instruction the withdrawal of the departmental privileges enjoyed by the schools. Private candidates, whose certified works are in any way suspected by the examiners, will be liable to have their examination invalidated and also to be debarred from appearing for any of the examinations under the control of the Commissioner for such term of years as the Commissioner may think fit.

It must be particularly noted that the drawings, etc., of each candidate should be submitted in a separate roll for each subject and for each grade (*i.e.*, the drawings, etc., for a number of subjects should not be rolled up together), and that the drawings, etc., of a number of candidates should not be sent in one and the same roll. *Also, on the outside of each roll for each subject, each candidate should enter the following particulars on it:*—

(1) Name of candidate,	(4) Grade, and
(2) Place of examination,	(5) Total number of drawings in each roll.
(3) Subject,	

As the application has to be kept in the office and as the drawings, etc., have to be forwarded to the examiners, the application itself should be sent in a *separate cover* and *not rolled up* with the drawings, etc.

A candidate who failed, or having applied, did not appear, at a previous examination, must submit fresh drawings, etc. The drawings, etc., submitted will on no account be returned.

10. Candidates must send in their applications made out in English on *printed forms so that they reach the Commissioner's Office on or before the 31st January, after which date no applications will be received.* Only one form of application should be used by each candidate, although he may bring up several subjects and come up for different grades.

11. Candidates in the mofussil should obtain the required application forms from the treasury of the taluk in which they are resident or of the district to which they belong. Candidates who are residents of Madras should apply for application forms at the Office of the Commissioner for Government Examinations, Old College, Nungambakkam, and not to the Collector of Madras.

N.B.—No notice will be taken of any application from candidates in the mofussil requesting to be supplied with application forms from this office.

12. The following is the scale of fees to be paid by candidates for admission to the examinations:—

	Elementary	Intermediate.	Advanced.
	Rs.	Rs.	Rs.
Fee each subject	3	5	10
For each stage where a subject is divided into stages	..	2½	5

N.B.—No candidate will be permitted to come up for examination in more than one grade in the same subject at the same time.

13. The prescribed fee must be paid in every case into a Government Treasury, or, at Madras, into the Bank of Madras, and the receipt given by the Treasury Officer or the Bank of Madras attached to the application, which must in every case reach the Commissioner's Office on or before the 31st January. *On no account will the fees be received in the Commissioner's Office, whether sent in cash or by Post Office order. No application will be registered unless it reaches the Commissioner's Office by the date prescribed.*

NOTE.—*At Madras, in the case of all pupils, the fees should be collected by the Headmaster and sent in a lump sum to the Bank of Madras together with two lists of the pupils, one of which will be retained by the Bank and the other signed and returned to the Headmaster. This latter list should be forwarded to this office along with the applications of the candidates. The necessary forms for this purpose will be supplied by this office to Headmasters on application.*

14. Each application should be sent direct to the undersigned, post paid, superscribed and addressed as follows, the receipt for the fee paid *him, securely fastened to it.*

☞ Candidates are warned that the application itself *should not be enclosed* with any drawings, plans, surveys, field-books, estimates, or other "certified works" that may be sent, but should be submitted in a *separate* cover.

[*Application for admission to the Government Technical Examinations.*]

To

The Secretary to the Commissioner
for Government Examinations,
Nungambakkam,
Madras, S.W.

N.B.—Candidates anxious to secure themselves that their applications have been received should enclose an *addressed post card in their respective applications.* The post card should bear the sender's address only, and no other writing. Such post cards will be returned to them in due course with the "Received" stamp of the office impressed upon them. No other form of acknowledgment except that required by the postal rules regarding registered covers can possibly be given, nor will any notice be taken of any letter from any candidate inquiring whether his application has been received. *Insufficiently stamped covers will be rejected.*

15. Candidates should write their names, their father's names, and their house names, *distinctly* and *in full* in their applications and give their *addresses in full* also; if "Other Hindus", they should state in column 3 of their applications whether they are "Non-Brahman Caste Hindus", or "Panchamas". Applications defective in any particular will be returned.

NOTE.—*The occupation or profession of candidates, or the appointments held by them should invariably be stated—in full—in column 10 of their applications.*

16. *The fee paid will, in no case whatsoever, be refunded, nor will it be reserved for a subsequent examination. Neither will any excuse for that may have been tendered by post be returned. Candidates are warned to study the notification carefully and satisfy themselves before remitting their fees, that they fulfil the prescribed conditions of admission to the examination and that they can, if necessary, proceed, at their own expense, beyond the limits of the examination centre selected by them, for the purpose of undergoing the written, or the oral and practical examinations.*

17. Candidates for the Intermediate or Advanced examinations whose names have already been published in the Gazette as having passed a particular stage or stages in subjects in which the examination is divided into stages, or as having passed the Intermediate (late Pre-liminary), where the examination is of two grades—Intermediate and Advanced—must in their applications cite the date and page of the Gazette in which their names appear and their number in the list of successful candidates.

18. Subject to any change that it may be necessary or convenient to make in the arrangements, the Written examination will be conducted in the order of time and subjects shown in the following table, beginning each day at 10 o'clock in the forenoon and 2 o'clock in the afternoon except in the

ness of Type-writing for which the arrangement is different as shown in the time-table. *Candidates will not be allowed to come up in more than one of the subjects bracketed to, either for the same time or the same day, or for more than one grade of examination in the same subject in the same year.*

[The figures under the letters E, I, S and A in the third column show the duration of the question-papers for the respective grades.]

No. 9, Daniel Yesudial of the Lower Secondary Grade who is shown as having passed the Final Examination for Teachers' certificates as a trained candidate in the Supplement to the *Fort St. George Gazette*, dated 20th November 1906, is eligible only for an untrained Teachers' certificate of that grade.

Office of the Inspr. of European and Training Schools, Madras, 6th January 1909. E. W. MIDDLEMAST, M.A., *Inspector of European and Training Schools.*

EXAMINATION IN SCHOOL MANAGEMENT AND IN THE ART OF TEACHING FOR TEACHERS IN EUROPEAN SCHOOLS UNDER ARTICLE 65 OF THE CODE OF REGULATIONS FOR EUROPEAN SCHOOLS IN MADRAS.

Under G. O., No. 740, Educational, dated 4th November 1908, the First Examination in School Management and in the Art of Teaching under article 65 of the Code of Regulations for European Schools will be held in April 1909. The date and centres of examination will be notified later.

2. The examination is open only to European and Eurasian teachers employed in European Schools. Trained candidates who have passed the Preliminary Examination for Teachers' Certificates need not apply for the examination in order to qualify themselves for certificates under the European Code.

3. Only those candidates who have taught for a period of at least two years under the special observation of the Inspector of European Schools or the Inspectresses of Girls' Schools of the respective circles and who can produce a certificate that they have satisfied them as regards their methods and skill in teaching and class management are eligible to apply for the examination.

4. Applications should be made on printed forms, copies of which can be obtained from the Inspector of European Schools, Old College, Nungambakam, Madras. They should reach the Inspector not later than the 1st March 1909.

5. The fee for admission to the examination is Rs. 5 for each candidate which should be paid into a Government Treasury and the Treasury Officer's receipt should be attached to the application.

6. The following is the curriculum for the examination both for the Middle and the Primary Teachers' certificates, but a certain number of alternative questions will be set for the latter.

School Management.

(a) School buildings and equipment; the bearing of various types of School building on the work of the school; sanitary conditions and supervision.

(b) The materials for different types of European Schools; the framing of syllabuses in different subjects and of time-tables.

(c) School records including European School registers and returns.

(d) The moral aim of school work and its connexion with the home. Formation of habits—mental and moral—such as order, thoroughness, consideration for others, loyalty to fellow-pupils and the school, the intelligent use of leisure. Importance of studying the individual pupil. Personality of teacher. School drill, common breaches of order and decorum and how to deal with them. Breaches of the moral law and how to deal with them. Relations between teacher and pupil and teacher and parent; progress and conduct reports.

Art of Teaching.

General principles of method.—(1) The division of a subject into sections suitable (a) for each school year or term, (b) for each lesson. Differences which may be noticed between the sequence of ideas in arrangement of the subject matter, which may be demanded (c) by the nature of the child's mind and (ii) by the systematic treatment of text-books. The use of inductive rather than deductive methods.

(2) Perception and apperception.

(3) The typical lesson form; the four steps—

(i) Preparation (particularly as concerned with bringing into the pupils' minds those things and feelings which will help in the acquisition of the new knowledge, whether they are the result of previous lessons or of the out-of-school experiences, and so including an intimation of the aim of the lesson).

(ii) Presentation, the modes of presentation, *e.g.*, experiment, narration, developing questioning.

(iii) Abstraction, especially limitations to its use.

(iv) Application.

The teaching of the subjects of the curriculum.—Structure and use of the vocal organs; means of securing distinct articulation; use of stories, continuous speech; reading the alphabet, look and say and phonic methods, silent reading, recitation, its aim, the selection of pieces; writing, methods of holding pencil or pen, hygienic posture in writing; dictation and transcription as means not ends; Grammar, the aim in teaching it, its correlation with reading and composition; composition, oral and written; the use of pictures, objects, stories, previous lessons, a fixed and reference building and paraphrase in teaching it; the ordinary rules of punctuation; the teaching of sentence and paragraph structure; the value of outside reading; choice of subjects in relation to the attainments of the class.

Hand and eye training.—Drawing, the various media suitable for school work and the utility in practice of each; best methods of handling media and postures at work; the use of flat copies and objects; memory drawing, drawing as a training in observation and accuracy as a means of expressing facts and ideas. Correlation of drawing with the other subjects of the school course, *e.g.*, map and plan drawing in connexion with history and geography and arithmetic; drawing in connexion with object lessons and nature study; drawing in connection with writing; kindergarten occupations and their correlation with the other subjects of the child's education.

Nature study or elementary science.—Its aims and methods; the framing of suitable courses of lessons about natural phenomena, including animal and plant life and elementary physical geography with reference to local circumstances.

Number work and elementary mathematics.—Suitable methods and apparatus, especially practical methods in arithmetic and geometry, and oral methods in arithmetic.

Geography.—Its relation with nature study on the one hand and history on the other—importance of subdivision or generalization in geography teaching—the real meaning and use of maps—map-drawing not map-copying—other useful exercises.

History.—Prevalent errors in teaching it, too much detail, want of perspective, carelessness as to pupils' real understanding of its subject matter, failure to bring into any relation with their first hand knowledge of things, exclusive reliance on dull epitomes, failure to correlate with geography and language work. Importance of biographies, how to select and teach biographies. Necessity of a

knowledge of human nature and of realistic treatment. Influence of the study of history on character. How to draw up a good syllabus. Ways of dealing with the close text-book. Selection of appropriate poetry, songs and novels in connection with the period studied.

Domestic Economy (for woman candidates).—A course will be prescribed later.

General.—Notes and note-taking, their use in school work; home work and exercises, its nature and amount for different classes and in the different subjects, reasons for limiting amount of home exercises as much as possible in lower classes; the correction of home exercises and notes.

Library and Museum.—Their value; methods of encouraging their use by pupils.

The preparation of lessons by the teacher; notes of lessons.

For the High school Teachers' certificates, the above curriculum will be followed except that "Hand and Eye Training" and "The Art of Teaching" may be replaced by any two of the following subjects:—

1. Special methods of teaching Latin.
2. Do. French
3. Do. Physics (or Domestic Economy in the case of women candidates).
4. Do Mathematics.
5. Do History and Geography.

7. Teachers who have passed the Preliminary Examination for Teachers' certificates under the Madras Educational Rules will be granted the teachers' certificate under article 85 (a) of the Code of Regulations for European Schools without undergoing the above examination on payment of a fee of Rs. 2 each, provided they produce from the Inspector of European Schools or the Inspectresses of Girls' Schools of the respective circles a certificate of their competence during the two years' observation of their work.

The fees payable under the fourth and sixth schedules are now collected in cash, and applicants are warned that they must be responsible for any delay in making changes.

Cheques and money orders will only be accepted if made payable at *Calcutta* to the Secretary under the Inventions and Designs Act.

Copies of the weekly notifications, and of the quarterly lists, of applications and specifications filed in the Secretary's office are now on sale to the public at one anna and eight annas a copy, respectively. Consolidated indexes for 1905, 1906 and 1907, entitled "Inventions and Designs," are also on sale, price one rupee each. They contain a chronological list, subject-matter and name indexes of exclusive privileges for inventions, which have been obtained or applied for in the year, together with lists of designs applications.

All applications made under the Inventions and Designs Act, V of 1888, will from this date (December 19th, 1908) lie in the visitors' room of the Patents Office for ten days from the date of the *Gazette of India* in which their filing may have been notified: or, if the tenth day is a holiday, till the evening of the office day next following.

At the time of delivering or sending an application for leave to file a specification, the applicant shall cause a duplicate copy of the application to be delivered or sent therewith to the Secretary.

The Inventions and Designs Act (V of 1888), with the notifications and rules issued under its provisions and the notice of the office of Inventions and Designs, to which is added an explanatory memorandum for the guidance of persons applying for protection of Inventions and Designs. A new and revised edition is now on sale. Royal 8vo volumes, paper cover, price one rupee or 1s. 8d. To be had of the Superintendent, Government Printing, 8, Hastings Street, Calcutta, or of the Superintendent Patents Office, 2, Bankshall Street, Calcutta.

A copy of the Bill, which it is proposed to introduce to amend the law relating to the protection of Inventions and Designs, together with a statement of objects and reasons and notes on clauses, has been placed in the visitors' room of the Patents Office for inspection. Copies, price one rupee, may be obtained on application to the Superintendent, Patents Office, 2, Bankshall Street, Calcutta.

H. G. GRAVES,
Secretary under the Inventions and Designs Act, V of 1888.

REVENUE NOTIFICATIONS.

NOTIFICATION.

REVISED RULES FOR THE SUPERVISION OF BREWERIES.

No. 1.—In virtue of the power delegated under clause XIII (4), (8) and (10) of Government notification No. 486, dated 13th July 1896, and under clause IV of Government notification No. 124, dated 17th February 1908, the Commissioner of Salt, Abkári and Separate Revenue makes the following rules in supersession of those contained in Government notification No. 76, dated 13th February 1908, published on pages 189 to 193 of the *Fort St. George Gazette*, dated 17th February 1908, Part I, as amended by Government notification No. 198, dated 11th April 1908 :—

1. In these rules "Commissioner" means "Commissioner of Salt, Abkári and Separate Revenue", and "Board" means "Board of Revenue, Separate Revenue."

2. Any person desirous of obtaining a license for a brewery shall apply to the Abkári Deputy Commissioner through the Inspector of the Distillery Circle within the limits of which his brewery is situated. The application shall be accompanied by a treasury receipt for Rs 15 and a full description (hereinafter called an entry) of his premises and utensils, in which the purpose of, and the distinguishing mark on each room, place and vessel shall be clearly specified. The entry will be checked either by the Distillery Inspector or some other officer authorised to inspect breweries, who will certify to the fact if he finds it correct, and submit it with the brewer's application, the treasury receipt and his remarks to the Abkári Deputy Commissioner, who, if satisfied with the entry and that the applicant is a fit person to receive a license, will issue a license accordingly.

Note.—Persons desirous of constructing new buildings or equipping already existing buildings to be used as breweries are advised, before commencing the work, to submit plans of the buildings and descriptions of the plant to the Abkári Deputy Commissioner for approval. Any alterations and additions suggested by the latter officer should be duly attended to, and persons neglecting to comply with such suggestions will run the risk of being refused a brewery license.

3. Licenses shall be in such form and for such period as the Commissioner from time to time may prescribe and may be renewed. Each application for renewal shall be made to the Distillery Inspector at least one month before the expiration of the license and shall be accompanied by a treasury receipt for Rs. 15. A copy of the entry shall also be filed unless there has been no change in either the buildings or the plant since the issue of the previous license, in which case it will suffice if the surveying officer endorses that fact upon the application. The Distillery Inspector will submit

the application with its endorsement to the Abkári Deputy Commissioner who, if he sees no reason to the contrary, will renew the license.

4. An officer (hereinafter called the surveying officer) will be appointed by the Commissioner to take account of all the operations in the brewery, and it shall be competent for him, or for any other officer authorized to inspect breweries, to enter the building and visit and examine any room, place or utensil mentioned in the entry at any time either by day or night.

5. All mash-tuns, coppers, coolers, fermenting and racking or settling vessels shall be so placed and fixed, and underbacks so placed, as to admit of the contents being accurately gauged and measured. Before being taken into use all such vessels shall be gauged jointly by the Distillery Inspector and the surveying officer under the rules in force for gauging such vessels, and tables shall be constructed showing the total capacity of each vessel in imperial gallons (in the case of mash-tuns in imperial bushels) and in the case of wash-tuns, fermenting and racking or settling vessels, its capacity for each inch or an inch in depth. In the case of underbacks, coppers and coolers, dimensions tables only need be constructed. These tables before being taken into use shall be certified by the brewer or his accredited agent to be correct.

6. The name, or an abbreviation thereof, of each room or vessel shall be conspicuously painted thereon, and where more than one room or vessel is used for the same purpose they shall be distinguished by progressive numbers. Any room or vessel entered for a specific purpose shall be used for that purpose solely.

7. No repairs shall be executed to either buildings or plant and no alteration shall be made in the position or capacity of any gauged vessel without the sanction in writing of the surveying officer or of his superior officer. Before any vessel so altered can be again taken into use it shall be regauged and new tables shall be constructed if necessary. In the absence of the Distillery Inspector and to avoid delay, such regauging shall be effected by the surveying officer and such other officer as the Commissioner may direct, their results being checked by the Distillery Inspector on his next visit to the brewery. No addition shall be made to buildings or to plant shall be made without the previous consent of the Commissioner, and, on completion, the existing entry must be withdrawn and a new entry made.

8. Where beer is stored in casks which are used exclusively for storing beer and not for issue from the brewery, such casks shall be numbered consecutively and each shall have marked on both heads its number and capacity which shall be entered in a register to be kept by the brewer in a form prescribed by the Commissioner, and also the number of the brew in which the beer was manufactured. Any cask removed for repair or recoopering shall be regauged before being taken into use again and, if the capacity has been affected, a new entry shall be made in the cask register. The number of the brew shall also be painted on both heads of casks in which beer is issued from the brewery.

9. The surveying officer will be provided by the department with proper gauging rods and a standard saccharometer and thermometer. If the brewer questions the correctness of the instruments or the results obtained by the officer he must put in a written protest immediately. This will be forwarded with his remarks by the officer to the Distillery Inspector who, after due enquiry will report the matter for the orders of the Abkári Deputy Commissioner.

10. Each licensed brewer shall keep, in some part of the brewery which has been approved by the Distillery Inspector, a brewing book in such form as the Commissioner may prescribe. This book, which is the property of Government, will be supplied to him at the beginning of each quarter and shall be taken up at the end of each quarter by the surveying officer; and it shall be accessible by day or night to all officers authorised to inspect the brewery. In this book the brewer, or some responsible person employed by him, whose name has been approved by the Abkári Deputy Commissioner shall correctly enter the particulars of each brewing. The book shall not be in any way defaced or mutilated and the loss of it will entail immediate suspension of the brewer's license and, on enquiry, the explanation of the brewer is unsatisfactory, his license may be cancelled.

11. The brewer shall enter in the proper columns, at least 24 hours before beginning to mash malt or grain or to dissolve sugar, the day and hour of brewing and in the remarks column the consecutive number of the brew and the word "Native" or "English" as the case may be, with the date and hour of making the entry, and at least six hours before the time entered for mashing or dissolving he shall enter separately in the proper columns the quantities of malt or unmalted corn, sugar or glucose and of hops or hop substitutes to be used and the hour when all the worts will be drawn off the grains in the mash-tun. He shall also enter in the appropriate column the dip and gravity of the worts collected, the number and description of the vessel or vessels in which they have been collected and the date and hour of the entry. Such entry shall be made within one hour after the collection has been completed, or if the worts be not collected before 6 P.M., the entry shall be made before 8 next morning. If fermentation has started before the requisite entry has been made, the brewer shall enter the true original gravity of the wort. Each entry shall be initialled by the brewer or his agent.

12. Beer shall be brewed from good materials and its quality shall be such as to satisfy the Commissioner. Wort shall not be brewed of a higher gravity than 1073°. Nothing shall be added to beer after it has been racked and removed to a beer store, except finings or other material approved by the Commissioner. Beer in beer stores must not be diluted and any beer found in stores which has been either diluted or in any way adulterated will be liable to forfeiture. The forfeiture of the beer will not relieve the brewer from the penalty of fine or cancellation of license prescribed under rule 21.

13. Officers surveying breweries shall make a complete survey of the whole of the brewery plant on every day on which they visit a brewery, showing, in the proper columns in a survey book, the form of which will be prescribed by the Commissioner, the condition of each vessel and the dip and gravity of each vessel containing fermenting wort unless such wort shall be fining, when, except in case of suspicion of fraudulent addition of saccharine matter or of addition or removal of wort, the surface need not be broken. A copy of each survey will be made in a similar book and will be left at the brewery for the information of the brewer.

14. Each brewer shall keep a stock account in such form as may be prescribed by the Commissioner in which he shall daily enter the nett quantity of beer brewed by him, the quantity, if any,

situated and brought into stock after verification by the surveying officer or other officer authorized to inspect breweries, and the total quantity issued. Each issue in any place within the Madras Presidency shall be accompanied by a permit the counterfoil of which shall be retained in the permit book. Permits shall be consecutively numbered and before any permit book is taken into use it shall be examined by the surveying officer who will certify as to its correctness. No brewer is allowed to issue permits for consignments of beer to be exported to places outside the Presidency. Application for such permits should be made to the Collector of the district who, if he sees no reason to the contrary, will grant a permit and send a letter of advice to the officer in charge of the brewery. The permit must accompany the consignment. All such letters of advice and the counterfoils of permits issued by the brewer must be retained for at least a year. The stock book will be checked at least once in each week by the surveying officer; the quantities of beer brewed entered in it being compared with the entries in his survey book and the quantities of returned beer being compared with the statement of verification by the officer and the issues with the counterfoils of permits issued and with the letters of advice from the Collector, if any.

16. No entry in any of the books kept by a brewer under these rules shall be erased or overwritten. Should it be necessary to correct any entry a line should be drawn through the incorrect entry in such a manner as to leave it distinctly visible and the amended entry should be inserted above it. Every correction shall be initialled by the person making it at the time and by the surveying officer on his next inspection of the book. Merely clerical or arithmetical errors need not be specially noticed, but in the case of errors which cannot be so classed, the explanation of the brewer should be obtained and submitted to the Distillery Inspector with the surveying officer's remarks. A mashing or sugar dissolving entry may be cancelled if the brewer does not wish to act upon it by writing the word "cancelled" across the columns devoted to materials in the brewing book. But, if these columns have already been filled in, the figures must not be erased or crossed out and the word must be written in other blank spaces. In such cases a written explanation should be obtained from the brewer and submitted to the Distillery Inspector with the surveying officer's remarks.

17. Samples of wort in any stage of fermentation or of stored beer may be taken for analysis without payment by the surveying officer or any other officer authorized to inspect breweries. Samples of the wort during fermentation shall be taken by the surveying officer, at least once in each quarter, in accordance with such instructions as the Commissioner may issue and shall be forwarded to the Board's laboratory for analysis. On any other occasion on which samples are taken, either of wort or beer, the officer taking them will submit a special report to the Distillery Inspector or the Abkári Deputy Commissioner explaining the reasons for sampling and the nature of the analysis required. Samples of brewing materials will be taken only if called for by the Commissioner. When, however, there is a large discrepancy between the quantity of malt or unmalted corn entered in the brewing book and that of the grains in the mash tun, a sample of the grains should be taken and at once sent for analysis with a report giving a copy of the entry in the brewing book, the dip of the grains in the mash-tun, the quantity represented by the dip and the percentage of increase or decrease. On this report and after examination of the sample, the Commissioner will pass such orders as he thinks fit.

17. The stock of beer in every brewery will be taken at least twice in each year by the Distillery Inspector or such other officer as the Commissioner may direct. Stock shall only be taken at other times by the surveying officer or other officer lower in rank than the Distillery Inspector if there is any suspicion of fraudulent practices. On all occasions the results will be immediately reported to the Commissioner, in the latter case with the reasons for taking stock. The explanation of the brewer for any excess or deficiency exceeding one per cent. found in stock should be obtained before the report is submitted. The Commissioner will pass orders whether any, and if so, how much duty shall be claimed in regard to such excess or deficiency.

18. The Distillery Inspector after careful examination of all the books will submit to the Board at the end of each quarter an account showing the quantity of beer actually brewed less 5 per cent. allowed for wastage, and the duty thereon calculated at the rate of two annas per imperial gallon or at such other rate as His Excellency the Governor in Council may prescribe from time to time under section 17 of the Madras Abkári Act, 1886. On this account the Commissioner will pass orders as to the amount of duty to be paid.

19. The brewer shall pay the duty demanded into a Government treasury within five days of the receipt of an advice as to the amount due. The Distillery Inspector will notify both the Collector of the district and the Commissioner of the date of delivery of the advice. The Treasury officer will grant a receipt to the brewer for all such payments and send a letter of advice to the Distillery Inspector and the Collector will notify the date of payment to the Commissioner. Interest at the rate of 6 per centum per annum will be charged on all amounts not paid within the notified time.

20. If a brewer objects to the amount of duty demanded from him he may move the Commissioner to revise the charge. But no revision will be undertaken unless and until all sums demanded under rule 19 have been paid. In the event of the original charge being found incorrect, any excess levied from him will be refunded to the brewer, and if the amount claimed from him is found to be less than that actually due he will be called upon to pay the difference at once into a Government treasury.

21. In case of any breach of these rules or of the conditions of the license either by the brewer or by any person in his employment, it shall be competent for the Commissioner to impose a fine not exceeding Rs. 50 for each such breach or to suspend or cancel the license, or both.

22. The imposition of a fine or the suspension or cancellation of the license under the last preceding rule shall not be held to prevent the prosecution of any person for any offence which he may commit against the provisions of the Madras Abkári Act, 1886, or other law for the time being in force. If, on such prosecution before a Magistrate, a brewer be convicted it shall be lawful for the Commissioner to declare his license forfeited.

23. Brewers shall be bound by all additional rules for the control of breweries which may hereafter be prescribed under the existing Abkári law or under any law which may hereafter be enacted and by all special orders issued by the Commissioner with regard to individual breweries and shall cause all persons employed by them in their breweries to obey all such rules.

TENDERS FOR SUPPLYING LABOUR FOR THE CONDUCT OF SALES AT THE MADRAS SALT DEPOT INCLUDING ISSUES FOR FISH-CURING PURPOSES.

SEALED tenders for the privilege of supplying labour for conducting the sale of salt at the Madras Salt Depot including issues for fish-curing purposes during the year 1909-10 except in those exceptional cases in which merchants may be specially permitted by the Assistant Commissioner, Chingleput Sub-Division, or the Inspector, Madras Depot Circle, to supply their own coolies, will be received by the Assistant Commissioner at the Office of the Inspector, Madras Depot Circle, up to 2 P.M. on Monday the 1st February 1909.

2. Covers containing tenders should be superscribed "Tenders for the supply of labour for conducting sale, etc., of salt at the Madras Salt Depot" and should be accompanied by a deposit of Rs. 100 in currency notes.

3. Nature of work—

(i) Taking the tare of gunnies and waggons.

(ii) Uncovering heaps for sale or for issue for fish-curing purposes.

(iii) Bagging salt by measure or cup scale measurement as required by merchants in the case of sales and by cup scale weighment in the case of issues for fish-curing purposes;

(iv) Securely stitching up the mouths of bags with double twine supplied either (1) by the merchants or the department; (2) by the tenderer himself, in which case the quality of the twine should be such as to meet with the approval of the Inspector.

(v) Loading bags on to waggons or carts as required by merchants or the department and shooting waggons when necessary; and all other matters connected with the weighment, check-weighment and delivery of salt to merchants outside the depot premises.

(vi) Passing the loaded waggons over the weighbridges for weighment or supplying labour for check-weighing cart sales and issues for fish-curing purposes.

(vii) Re-forming and re-covering the balance of heaps opened for sale or for issue for fish-curing purposes and tidying up of the places of sale or issue in such manner as may be required by the officer in charge of the Depot.

4. Tenderers must state the rate at which they are prepared to supply labour per bag (1) with twine and (2) without twine for each platform.

5. The successful tenderer will be required to make a further deposit of Rs. 500 in cash for the due fulfilment of the contract and execute an agreement (copy of which can be seen at the Office of the Assistant Commissioner or at the Madras Salt Depot) within a week of his being informed of the acceptance of his tender, and in case of failure to do so, his deposit will be forfeited to Government and the acceptance of the tender cancelled. The necessary stamp duty on the agreement must be paid by himself.

6. The department will not bind itself to accept the lowest or any tender.

7. If the successful tenderer, on notice given the day before removal of the number of waggons wanted by merchants or by the department, fails to supply sufficient labour, the merchants or the department will be entitled to recover from him any sum they may be charged for demurrage on account of waggons detained through his failure. On the other hand, if after due notice to the contractor waggons are detained by the merchants themselves or by the department the charges to which the contractor would be otherwise entitled, will be paid to him by them, before the waggons detained by them leave the Depot.

8. Merchants applying for salt will be required to pay into the Salt Depot treasury, along with the duty and cost price, the cost of labour at the rate accepted by the department, and the successful tenderer will be paid departmentally once a fortnight. Fortnightly payments will also be made in the case of issues for fish-curing purposes.

9. Further information if required may be obtained from the Inspector, Madras Depot Circle.

10. The deposit of unsuccessful tenderers will be returned as soon as possible after the opening of the tenders, while the deposit of the successful tenderer will be returned on due fulfilment of the contract.

TENDERS FOR THE SUPPLY OF EMBROIDERED BADGES.

I.—Sealed tenders for the supply of the undermentioned supplies from the date of acceptance of the tender to 31st March 1910 will be received by the Superintendent, Army Clothing Factory, Madras, up to 12 noon on the 22nd February 1909.

II.—Forms of "Tender" and "Schedules" (I.A.F. 2319C, 2121 and 2122) of the stores for the supply of which tenders are invited, are obtainable on payment at the rate of Re. 1 per set on application in writing. The forms will be issued to firms on the contractors standing on satisfactory references being furnished. Samples of the articles to be supplied can be inspected at this Factory or at the Army Clothing Factory, Alipore, any day (Sundays and holidays excepted) between the hours of 10 A.M. and 2 P.M.

III.—Tenders will only be received in accordance with the conditions on these printed forms, which must be submitted in duplicate and in English and should specify in words as well as in figures the rate at which each description of article named in them will be delivered. Fractional parts of pies in rates will not be accepted. Tenders must be duly signed and completed in accordance with the instructions they contain. Any alterations or additions must be certified by the tenderer's initials, but if these are very numerous, the tender will be rejected.

IV.—Tenders should be accompanied by a deposit in the form of a $\frac{\text{Presidency Bank}}{\text{Treasury}}$ Receipt or Government Promissory Notes, Provincial or Municipal debentures, or port trust bonds, as earnest money, at the rate of 2 per cent on the total value for the stores tendered for, subject to a minimum of Rs. 25 which deposit will be returned on acceptance or rejection of the tender. In the case of Promissory Notes being furnished they must remain in the name of the depositor.

V.—No security or deposit which the tenderer may have furnished in connection with a previous contract or on any other account can be accepted as earnest money.

VI.—The approval or rejection of tenders rests with the undersigned who reserves to himself the right of rejecting any tender, or any items in a tender, without cause assigned. The lowest tender will not of necessity be accepted.

† VII.—Tenders will be opened at the office at 12 noon on Monday the 22nd February 1909. Tenderers are invited to attend.

VIII.—Parties tendering are particularly requested to give their addresses in full.

IX.—Any further information required can be obtained on application to this office between the hours of 10 A.M. and 4 P.M. (Sundays and holidays excepted).

† X.—Tenders must be sent under a strong cover, securely fastened, sealed with a distinctive device and conspicuously marked "Tender for the supply of Embroidered Badges" and addressed to the Superintendent, Army Clothing Factory, Madras, and not to any officer by name.

XI.—Tenders which do not comply with the above conditions will be rejected.

Madras, 8th January 1909.

H. MACDONALD, Captain,
Superintendent, Army Clothing Factory.

TENDERS FOR THE SUPPLY OF RAW SHELL, ETC.

Notice is hereby given that sealed tenders will be received by the Executive Engineer, Presidency division, at his office at Chepauk up to 2 P.M., on the 23rd January 1909 for the supplies noted below at the Government Brickfields, Peonamallee road, Madras, for the year 1909–1910.

The cover containing each tender should be addressed to the Executive Engineer, Presidency division.

In addition to the address, each cover should bear on it the name of the supply for which the tender is given, and the name of the tenderer.

The Executive Engineer, Presidency division, reserves to himself the right of rejecting any or all the tenders without assigning any reason.

The contract must not be sublet.

In the event of the tender being submitted by a firm, it must be signed separately by each member thereof, or, in the event of the absence of any partner, it must be signed on his behalf by a person holding a power of attorney authorising him to do so.

The address of each tenderer should be given in full in the form of tender.

Tenders will be opened by the Executive Engineer, Presidency division, at 2 P.M. on the 23rd January 1909 in the presence of all who care to attend.

About 15,000 parahs of lime slaked and about 100 parahs of burnt shell will be required every month.

The sheds, kilns and such other plant as are now in the Government Brickfields will be leased at the disposal of the contractor.

Shell, charcoal, coal, straw and all necessary materials also labour for charging and unloading the kilns and shaking the burnt shell shall be supplied by the contractor.

The lime and the burnt shell will be billed for as they are issued at the various works and will be paid for at the end of each month.

The Executive Engineer does not hold himself responsible for any of the materials but will give such assistance as he can for the safe custody of the same.

The Executive Engineer will issue orders as far as possible that all contractors shall by the whole quantities of the lime required for the works in this division at Government Brickfields

The Executive Engineer will make no compensation for the half burnt shell, etc

The contractor shall in no case sell or otherwise dispose of any material for other than Government works, without special written sanction from the Executive Engineer

The contractor should deposit Rs. 550 (five hundred and fifty) for the due fulfilment of his contract.

The lime wash will be supplied to the extent that may be necessary according to the Executive Engineer's specification.

The tenders must be submitted for the items noted below :—

(1) Raw shells, first sort, per gross.
(2) Do. second sort do.
(3) Do. third sort do.
(4) Burnt shell per parah.
(5) Slaked lime do.
(6) Lime wash per 100 pints.

D. MARSHALL,
Executive Engineer, Presidency Division.

Chepauk, 7th January 1909.

BELLARY CENTRAL JAIL.

TENDERS FOR THE SUPPLY OF CHUNAM, BLACK WOOL AND GREY WOOL.

NOTICE is hereby given that tenders will be received by the Superintendent, Central Jail, Bellary, up to 11 A.M. on the 22nd February 1909 for the supply of the following articles, to be delivered at the Bellary Central Jail from 1st March 1909 to 31st January 1910 :—

Articles.	Quantity required.
	lb.
Chunam, black wool	40,000 more or less.
Do. grey wool	20,000 do.

I. One pound samples must accompany each tender and the tenders must specify in maunds (25 pounds to a maund) the rate at which each description of wool can be supplied at the Jail or on rails at Bellary Railway Station (Quantities for delivery elsewhere will not be considered.)

II. Each tender must be accompanied by a deposit of rupees (50) fifty, which will be returned if the tender is not accepted

III. The successful tenderer must, within a week from the date of the acceptance of his tender being made known to him, deposit a sum equivalent to 5 per cent of the price of the articles contracted for as security and execute an agreement on stamped paper (the cost of which will be borne by the tenderer) to deliver the articles tendered for as ordered by the superintendent.

IV. The articles will be paid for immediately upon delivery

V. The Superintendent reserves to himself the right of rejecting all or any of the tenders without assigning reasons for so doing.

VI. In case the contractor, after taking the contract, is not willing to carry out his agreement, he shall give timely notice and shall forfeit the security money to Government; the contractor will also be bound to make good to Government any loss which may arise from his failure or by Government having to purchase the articles specified in the contract in the local market at higher rates than those contracted for.

VII. The decision of the Inspector-General of Prisons shall be final in all questions of infringement.

VIII. Further particulars may be had on application to the Superintendent.

Central Jail, Bellary,
29th Dec, 1908.

GEO. GAINSFORD,
Ag. Superintendent of Jail.

MADRAS PORT TRUST.

MINUTES OF MEETINGS.

Minutes of a Board Meeting No. 19 of 1908–1909 held on the 18th December 1908.

PRESENT:

Mr. F. J. E. Spring, C.I.E., *Chairman.*

Mr. C. G. Todhunter, I.C.S.	Mr. C. B. Simpson.
Commander W. Mitchell, R.I.M.	Mr. E. W. Orr.
Mr. S. D. Peats.	Mahammad Abdul Kuddus Badsha Sahib.
Mr. H. S. Franz.	M.R.Ry. Rao Sahib T. Namberumal Chetty Garu.
Mr. A. Sobell.	

243. Read, approved and recorded the minutes of the proceedings of the previous meeting held on Friday, 4th December 1908.

246. Read and recorded G.O., No. 327, Marine, dated 8th December 1908, appointing Mr. C. G. Todhunter, I.C.S., to be a Trustee of the Port of Madras, *vice* Mr. J. S. Heaney, I.C.S., deceased.

247. It was resolved to place on record an expression of the Board's regret for the decease of their late colleague Mr. J. S. Heaney, I.C.S., Collector of Customs.

248. Resolved that in place of Mr. Heaney, deceased, the name of Mr. C. G. Todhunter be submitted to Government as the Port Trust Board's nomination as its representative on the Madras Corporation.

249. Read again the correspondence on the subject of the utilisation by the Port Trust of land comprised within the military zone line of Fort St. George, ending with G.O., No. 295, Marine, dated the 16th October 1908, recorded in Port Trust Board's Resolution No. 165, dated the 23rd October 1908. Read also a note by the Chairman making certain proposals suggested as the result of an unofficial exchange of views on the occasion of a recent visit to the Port by His Excellency the Commander-in-Chief.

Resolved that, in exchange for free and unrestricted possession of all military land north of the line suggested in paragraph 4 of the Chairman's letter to Government No. 3090, dated the 31st July 1907, the Trustees are willing to build, at the cost of the Trust, a new battery, in replacement of the present lighthouse battery, and of more or less similar character, on a site and of a design approved by the Military authorities.

Resolved also that, in exchange for free and unrestricted possession of all the military land on which stand the Clive battery and its environment, the Trustees are willing to build, at the cost of the Trust, and on land to be provided by the Military authorities—land believed to be already in their possession in Royapuram—a new battery in replacement of and of more or less similar character to the present Clive battery, of a design approved by the Military authorities.

Resolved also that, after ascertaining if possible the cost of the two existing batteries, the Chairman address Government in the above sense, with a request for a loan of the necessary amount, to be added to the outstanding part of and to be amortised in the same manner and by the same date, as (15th August 1945) the loan at present under amortisation in terms of G.O., No. 441-A, dated the 5th September 1905.

250. Read a letter, No. 307, dated the 14th December 1908, from the Bursar of the Madras Christian College communicating a copy of a resolution of the College council, dated the 9th December 1908, on the subject of their playground on the land within the military zone line lately—*vide* Port Trust Resolution No. 2, dated 14th July 1905—made over for use by the Trust.

Resolved that, subject to the sanction of Government, which will be applied for, a grant of Rs. 1,000 be made to the College, as an act of courtesy only, towards the cost of a new playground.

251. Read again Resolution No. 100, dated the 17th July, appointing a Committee to enquire into the question of the better handling of the bar iron trade of the Port. Read also again Resolution No. 310, dated 6th November 1908, recording the sanction of Government to the works required for the bar iron trade. Read also draft letter by the Chairman to the Chamber of Commerce.

Resolved that the Chairman's letter be adopted.

252. The Budget Estimates of the receipts and expenditure of the Madras Pilotage Fund for the year 1909–10 were approved.

253. Read note by the Deputy Port Conservator, No. 2030, dated 14th December 1908, recommending that Mr. A. Craig be promoted to permanent fourth Harbour Master from the 17th instant.

Resolved that the Deputy Port Conservator's recommendation be sanctioned.

254. Read correspondence with Messrs. Mahamadally Fazallaly & Co. regarding their understatement of the weight of the 100 barrels cement imported from Antwerp by the S. S. "Saronida".

Resolved that the Trust's Solicitor be instructed to take immediate steps to recover the penalty due under section 105 of the Madras Port Trust Act, at double the usual rate.

255. Read note by the Chairman suggesting that the new edition of the Port Trust bye-laws brought up to date be submitted to Government for sanction.

Resolved that the bye-laws as now edited be submitted to Government for sanction.

256. Read correspondence on the subject of the Trust's coal supply for 1909.

Resolved that the Chairman's acceptance of the tender of Messrs. Shaw Wallace & Co. be confirmed.

257. Recorded G.O., No. 328, Marine, dated 8th December 1908, directing publication in the *Fort St. George Gazette* of notification declaring sleeping sickness to be a "dangerous, infectious or contagious disease occurring in India" under the Indian Ports Act, 1889, and issuing certain rules connected therewith, and requesting the Presidency Port Officer to submit a draft of the regulations which should be framed in respect of the berthing, etc., of vessels infected with that disease.

Read also draft regulations by the Presidency Port Officer for other ports.

Resolved that similar regulations for the Madras Port be submitted to Government for sanction.

258. Read and recorded a note by the Trust's Chief Engineer on the subject of repairs needed to the hull of the dredger "Triton" and the alterations of construction programme thereby necessitated.

259. Recorded a *nil* statement of estimates sanctioned since the 4th December 1908.

260. Securities and cash held by the Bank of Madras for the Madras Port Trust on the 17th December 1908 were ordered to be recorded as follows:—

There was no calm hour during the month. The resultant corresponding to the above numbers is represented by a N.E. by N. wind, blowing with a uniform daily velocity of 173 miles.

Weather was fine during nearly the whole of the month at Madras and over the north of the Presidency. There was very little cloud, skies being generally clear, while day and night temperatures were lower than usual. Light showers were received on the 22nd and 23rd of the month. On the 29th a storm of some severity formed in the south-west of the Bay and moved in a westerly direction. It gave moderate to heavy rain over the greater part of the Presidency. The total amount received at Madras during the month was less than half the average for December.

The Standard Barometer and Thermometers are read at 8 A.M., 10 A.M., 4 P.M. and 8 P.M., and the daily means are obtained by the application of hourly corrections, deduced from twenty years' observations. The cistern of the Barometer is twenty-two feet above the level of the sea, and the receiver of the Rain Gauge is two feet from the ground. The wind, rain and general weather registered are for the current Civil Day—from midnight to midnight.

The total quantity of rain collected since January 1st is 0·20 inches, the average due for the same period being 0·27 inch.

QUESTIONS AND ANSWERS.

The Hon'ble Mr. KRISHNASWAMI AIYAR:—

I. (*a*) Will the Government be pleased to state how many persons residing in the Agency tracts of the Presidency of Madras have, within the last ten years, been placed under personal restraint without any immediate view to ulterior proceedings of a judicial nature?

(*b*) Will the Government be pleased to state the nature and extent of such restraint in each case and under what specific provision of law such a power has been exercised by Government?

(*c*) Will the Government be pleased to state whether any allowance was fixed for each of the persons under such restraint and paid to him, and if so what?

(*d*) Has the Agent to the Governor in the districts of Ganjám, Vizagapatam and Gódávari within the last twenty years exercised any power of restraining the liberty of any individual in the Agency tracts without any immediate view to ulterior proceedings of a judicial nature, and if so in how many cases and under what legal authority?

The Hon'ble Mr. Weir:—

I. The Government regret their inability to furnish to-day the information asked for by the Honourable Member, but hope to do so at the next meeting of the Legislative Council.

The Hon'ble Mr KRISHNASWAMI AIYAR:—

II. (*a*) Has the attention of the Government been drawn to the resolutions of the All-India Temperance Conference published in the *Madras Mail*, dated the 28th December 1908?

(*b*) Will the Government be pleased to state whether they intend to institute any enquiries or take any action in connection with the same?

(*c*) Will the Government be pleased to state whether a thorough and independent enquiry with reference to the number and location of liquor shops has been made as stated in His Excellency the Governor's speech at the discussion of the Financial Statement for 1908–1909 to have been determined by Government?

(*d*) Will the Government be pleased to lay on the table a statement showing in what Municipalities and in what local areas such enquiry has been instituted?

(*e*) Will the Government also be pleased to state the constitution of the Committee appointed in each Municipal area for such enquiry specifying the names of the individuals composing it?

(*f*) Will the Government be pleased to state whether any instructions have been issued limiting the discretion of each Committee as regards the scope of possible reduction in the number of liquor shops?

Questions and Answers; Assent to Acts; Communications for the Council.

(Mr. Wynch.)

The Hon'ble Mr. Wynch :—

11 (*a*), (*b*) & (*c*) The resolutions of the Conference have not yet been received by Government. A thorough enquiry was ordered to be made in G.O., No. 75, dated 10th January 1908, which was placed on the Editors' Table. The report called for in paragraph 6 thereof has not yet been received by Government. The actual number of arrack and toddy shops sold in the current year shows a considerable reduction as compared with the previous year. In Madras Town a thorough enquiry has been made by a Committee consisting of the Collector of Madras (President), the Commissioner of Police and the President of the Madras Corporation assisted by the Commissioners of the Corporation, and a substantial reduction of shops has been ordered.

(*d*) The enquiry has been ordered to be made in all Municipalities. In rural areas the enquiry was ordered to be made by the Collector.

(*e*) (*A*) In the case of Municipalities at the head-quarters of districts and of those having a population of 30,000 and over, the Committee was to consist of—

(1) Collector (President).
(2) District Superintendent of Police.
(3) Chairman of the Municipality.

(*B*) In the case of other Municipalities, the Committee was to consist of—

(1) The Divisional Officer (President).
(2) The Chairman of the Municipality.
(3) The Assistant Superintendent of Police or other local Police Officer to be appointed by the District Superintendent of Police.

In regard to Municipalities included in class (*B*) in which the Divisional Officer was himself the Chairman of the Municipality, a member of the Municipal Council was to be selected by the Council to act with the Divisional Officer and the local Police Officer.

As the reports of the Committees appointed for Municipalities outside Madras Town have not yet reached Government, no information is available regarding the names of the individuals composing the Committees.

(*f*) The instructions issued to the Committees by Government were those contained in the Government of India Resolution No. 5086-Exc., dated 15th August 1907, and paragraph 4 of G.O., No. 75, dated 10th January 1908, which has been placed on the Editors' Table.

ACTS ASSENTED TO BY HIS EXCELLENCY THE GOVERNOR.

The Secretary reported that the following Bills, which had been passed into law at the Meeting of the Council held on the 9th December 1908, received the assent of His Excellency the Governor on the 14th idem :—

(1) A Bill to amend the Madras Revenue Recovery Act II of 1864.

(2) A Bill to amend the Madras District Police Act, 1859, and the Madras Towns Nuisances Act, 1889.

(3) A Bill to repeal the Madras Labour and Emigration Act, 1866 (Madras Act V of 1866).

COMMUNICATIONS FOR THE COUNCIL.

The Secretary reported the receipt of the following papers relating to the Bill to amend the Madras Estates Land Act, 1908 :—

(1) From the Secretary, Ryots' Committee, Pittapur Estate, dated the 4th instant, suggesting amendment of sections 3 (17), 9, 55 and 59 of the Madras Estates Land Act, 1908, and of clause 3 of the Bill to amend that Act.

(Mr. Forbes.)

(2) From the Zamindar of Kangundi, dated the 5th instant, protesting against the second clause of the Bill to amend the Madras Estates Land Act, 1908, and suggesting instead the addition to section 3 (11) (*c*) of the Act of the words "if they are included in the assets of the estate"; suggesting also that landholders should be authorised to proceed against the moveable property of inamdars and attach whatever interest the inamdar has in the inam

(3) A telegram from the Receiver of the Nidadavole and Madur Estate objecting to the amendments proposed by Hon'ble Mr. B. Narasimhaswami Sarma.

MADRAS ESTATES LAND ACT AMENDMENT BILL.

The Hon'ble Mr. FORBES, in introducing the Bill to amend the Madras Estates Land Act, 1908, and moving that it be read in Council, said:—"Your Excellency, I have the honour to introduce a Bill to amend the Madras Estates Land Act. The Bill has been duly published as required by the rules, and the Statement of Objects and Reasons explains its provisions. The Bill is confined to the amending of certain sections only, and is meant to carry out, by the use of more explicit language, the intention of the legislature in respect of certain provisions of the Act and at the same time to correct a few drafting slips that have been brought to notice since the Act was passed. There is no general principle to be explained; and I will offer a few words of explanation in regard to each of the clauses in consecutive order, although there appears to be little to add to the remarks in the Statement of Objects and Reasons.

"Clause 2 of the Bill proposes to omit clause (*c*) of sub-section (11) of section 3 of the main Act and so remove from the purview of the Act 'quit-rent, jodu, poruppu 'and the like payable by an inamdar as such to the landholder.' This was clearly the intention of the Council as will be seen from the debates on what was then section 143-A of the Bill. When section 3 (11) (*c*) was under consideration, the consideration of the question of giving effect to this intention was postponed, as Honourable Members will see if they refer to page 91 of the debates; but when clause 143-A and the provisions in the part of the Act relating to the recovery of the rent were finally settled, the effect of section 3 was inadvertently overlooked. But when section 3 itself was under consideration the intention was understood, for the Raja of Kurupam said: 'The proviso takes away the right of the landholder 'to proceed against the interest of the inamdar as such in the holding and compels him 'to have recourse to Civil Courts when the inam is under the occupation of the ryot.' I mention this simply to show that the intention of the legislature was pretty apparent even when clause 3 was under consideration; and it was quite clear when the later clause 143 was adopted. It is evident from the debates on the two sections that the Council was quite clear that a landlord should not proceed against the tenant's interest when there was an intermediate inamdar and that the landholder should not employ the Act for the recovery of quit-rents, but seek his remedy in the Civil Courts. The simplest mode of removing the inconsistency is by omitting the clause, as the Bill proposes.

"Proceeding now to the next clause of the Bill—Clause 3 attempts to make the meaning of section 6 of the Act more clear. Sub section (1) of section 6 runs thus:—'Subject to the provisions of this Act, every ryot now in possession, or who shall 'hereafter be admitted by a landholder to possession, of ryoti land not being old waste 'situated in the estate of such landholder shall have a permanent right of occupancy 'in his holding; but nothing contained in this sub-section shall affect any permanent 'right of occupancy that may have been acquired in land which was old waste before 'the commencement of this Act' Doubts have been raised as to the precise import of the words 'now in possession' in that sub-section, and the proposed explanation is intended to set out this effect more definitely. The provision which it is sought to amend was intended not as a mere declaration—which would have been superfluous—that persons who had occupancy rights before were to have the same in future, but to confer occupancy rights upon all tenants who were in possession of ryoti land on the 1st July 1908.

Madras Estates Land Act Amendment Bill.

(Mr. Forbes.)

"Passing on to clause 4 of the Bill, it runs thus:—'In sub-section (4) of section '6 of the said Act, after the words "permanent right of occupancy" the following 'shall be inserted, namely:—"or entitle him to the benefit of section 157; nor shall "such land, by reason only of such letting and use for pasturage or temporary cultiva-"tion, become ryoti land."' The clause proposes to define more precisely the position of waste land given for temporary cultivation. Apprehensions have been expressed that, under sub-section (4) of section 6 of the Act, lands reserved *bonâ fide* by a landholder for forest may, when let under contract for temporary cultivation with agricultural crops, lose their character as forest lands by the operation of such letting and be absorbed into the category of ryoti lands. The intention was that such lands merely by such letting or use should not become ryoti lands, nor the occupants be regarded as ryots or be entitled to the benefits of section 157. Clause 4 of the Bill is designed to make this clear.

"Clause 5 of the Bill amends section 46 of the Act. That section enables a non-occupancy ryot holding 'old waste' land under a written lease to purchase the occupancy right on the payment of two and a half times the annual rent payable by him, and it also provides for the intervention, on the tenant's application, of the Collector to fix the rate of rent, which is the basis of the purchase, at a lower figure, on proof that the rent payable is greater than the rate usually paid by occupancy ryots for similar lands with similar advantages. This is considered to give an unnecessary wide right of intervention. The Government consider that ordinarily—I say ordinarily—the tenant should not be given any larger power than that of purchasing the occupancy right on the basis of the rent to which he has agreed under his lease. It is plain, however, that some protection is needed, and it is therefore proposed to allow the Collector's intervention on behalf of the tenant in cases where the agreed rent is 'excessive and calculated to prevent the acquisition of the 'occupancy right.' The proviso to section 46 as amended would then read thus:—'Provided that the ryot may for the purposes of any such application and tender and 'the landholder may, upon any such application and tender being made to him, apply 'to the Collector to fix the rent of the land for the purpose of this section, and if it 'is proved to the satisfaction of the Collector that the rate of rent payable in respect 'of such land is excessive and calculated to prevent the acquisition of the occupancy 'right or is less than the rate usually paid by occupancy ryots for similar land with 'similar advantages in the neighbourhood, the Collector may, notwithstanding any-'thing contained in section 26, fix in the former case a fair and equitable rent, and in 'the latter case the rent usually paid for similar lands with similar advantages in the 'neighbourhood, and the rent so fixed shall for the purposes of this section be deemed 'to be and to have been at the date of the application and tender the rent payable by 'the ryot.'

"I now come to the clauses which affect appeals in cases relating to the repair of irrigation works. These are clauses 6, 7 and 10 of the Bill by which, while we correct, as fully explained in the Statement of Objects and Reasons, the drafting inconsistencies between items 21, 22 and 23 of part B of the schedule and section 142 of the Act, we also in clause 6 take the opportunity of amending section 138 to supply a *casus omissus* and provide for a right of suit in a Civil Court to set aside an order of the Collector (now to be altered to District Collector) under that section. As the section was enacted an appeal was not specifically provided for, and the question has been raised whether a general right of action would remain to contest the Collector's award or whether the award is final. There is no objection to the landholders contesting the award, and it is therefore proposed to give a specific right of suit on stated grounds.

"Passing on now to clause 8, which amends section 153 of the Act, clause (*e*) of that section provides for the ejectment of a non-occupancy ryot who has been admitted to occupation of the land under a registered lease for a term exceeding five years on the expiry of the lease. As the law thus stands a tenant under a lease for a term not exceeding five years may hold over after its expiry. As regards leases granted after the Act comes into force the provision is not open to objection; but it has been complained that it would be hard to apply the provision retrospectively to

Madras Estates Land Act Amendment Bill.

(Mr. Forbes; Mr. Guruswami Aiyar; Mr. Hammick; Mr. Tyagaraya Chetti.)

leases granted before the Act came into operation. The Government are prepared to give effect to this complaint, and accordingly it is proposed to add to the section the words set out in clause 3 of the Bill, viz., 'Nothing in this section shall affect the 'liability of a non-occupancy ryot to be ejected on the ground of expiry of the term 'of a lease granted before the passing of this Act.' According to the scheme of the Act there can be non-occupancy ryots of ryoti land only in cases falling firstly under section 8 (3) ryots in possession of old waste, secondly under section 8 (5) ryots of reclaimed waste, and thirdly under section 8 (4) ryots of ryoti lands purchased or inherited by the landholder, over which he has prescribed rights for twelve years.

"Clause 9 of the Bill is a formal clause, and the Statement of Objects and Reasons fully explains it. Section 214 (3) of the Act provides that every document required by the Act to be signed or certified by a landholder may be signed or certified by an agent of the landholder authorized in writing in that behalf, but an exception is made as regards instruments appointing or authorizing an agent. The language of the exception would imply that an instrument appointing or authorizing an agent is a document required by the Act to be signed or certified by the landholder himself, which does not appear to be intended. The sub section, in its present form, might give rise to practical difficulties also in cases in which the landholder himself, though represented generally by an authorized agent, may be absent from his estate.

"These are all the amendments of the Act which the Bill proposes to deal with. Within the last few days several suggestions have been received for the amendment of other provisions, but these cannot be considered at the present time. The Government will, of course, give the most careful consideration to any such proposals and introduce such legislation as may appear necessary. No Act is perfect, and it is only by experience of its working that we shall discover the points in which the Act may be improved.

"I now move that the Bill be read in Council."

The Hon'ble Mr. Guruswami Aiyar seconded the motion.

The motion was put and agreed to, and the title of the Bill was then read by the Secretary.

The Hon'ble Mr. Forbes:—"Your Excellency, I now beg to move that the Bill be not referred to a Select Committee. The Bill is of an urgent nature, and the clauses of it are intended merely to correct errors of drafting and profess to make more explicit certain portions of the Act. The Bill has been published for the usual time, and I do not think that anything is to be gained by referring it to a Select Committee."

The Hon'ble Mr. Hammick seconded the motion.

The Hon'ble Rao Bahadur TYAGARAYA CHETTI:—"I object to the Bill being considered in Council now without being referred to a Select Committee. There are a good many reasons for it. As the Act now stands, there are several sections which require revision as they are found to be not consistent with one another. There are also some sections against which objections have been brought forward by different parties in the shape of petitions. I have also brought to the notice of the Honourable Mover of the Bill certain additions which seemed to me to be absolutely necessary."

The Hon'ble Mr. FORBES:—"That is with regard to the other parts of the Bill."

The Hon'ble Rao Bahadur TYAGARAYA CHETTI:—"Yes. For these grounds I beg to submit that the Bill should go before a Select Committee, so that they may give their attention to the sections that are now sought to be altered and also to other matters requiring revision. The very fact that within six months of the passing of the Act the present amendments are required shows that the Act, though it took several days for the Council to pass it, did not receive the same attention that it required. I, therefore, object to the proposal that the Bill be not referred to a Select Committee."

Madras Estates Land Act Amendment Bill.

(Mr. Kesava Pillai; the President; Mr. Tyagaraya Chetti; Mr. Narasimheswara Sarma; Mr. Guruswami Aiyar; Mr. Krishnaswami Aiyar; Mr. Forbes; Mr. Hammick.)

The Hon'ble Mr. KESAVA PILLAI:—"Your Excellency, I also object to the motion before the Council. I am afraid that the practice of not referring Bills to Select Committees may become chronic. We have had no time to collect facts and opinions on the amending Bill and to know the objections that might be felt. In this very instance, here is a representative member, the Hon'ble Mr. Narasimheswara Sarma, who has given notice of certain amendments; and some other gentleman, a zamindar, has objected to these amendments. All these things may be considered in a Committee with advantage. I don't think that the people would be satisfied if the Bill be passed without its being referred to a Select Committee."

His Excellency the PRESIDENT:—"I think it is well that the Council should clearly understand that if the Bill is referred to a Select Committee sections other than those sought to be dealt with by the amending Bill cannot come before the Select Committee. The preliminary requisite in amending this Estates Land Act is that we must receive the sanction of the Secretary of State to any proposed amendment. It would not be competent for the Select Committee, if appointed, to deal with matters such as those contained in the petitions to which the Secretary referred this morning or with sections of the original Act other than those which are dealt with in the amending Bill. Therefore the necessity of referring the Bill to a Select Committee is hardly apparent."

The Hon'ble Rao Bahadur TYAGARAYA CHETTI:—"Petitions have been received which refer to the Hon'ble Mr. Sarma's amendment. If the Bill goes before a Select Committee, the work could be done in a very short time."

The Hon'ble Mr. NARASIMHESWARA SARMA:—"I join the last two Honourable Members in opposing the motion not to refer the Bill to a Select Committee. I may say that the Zamindari Member has not been able to come and that there are certain petitions which were presented to us as we came into the meeting which require consideration. I know that some of the clauses proposed by the Honourable Mover are of an urgent nature, but I think the matter might stand over for a month and the Bill might, in the meantime, be considered by a Select Committee, so that either party may not say that the Bill had not received that discussion and attention which it deserved."

The Hon'ble Mr. GURUSWAMI AIYAR:—"In the view expressed by your Excellency, is the Hon'ble Mr. Sarma in order in proposing to amend a section which does not fall within the purview of the Bill? With reference to the objection that the Secretary of State will have to be communicated with, will Mr. Sarma's amendment be admissible?"

The Hon'ble Mr. KRISHNASWAMI AIYAR:—"It seems to me that there must be grave reasons for passing a Bill at a single sitting of the Council. Unless grave reasons are shown, we ought not to dispense with the formality of referring a Bill to a Select Committee. I am afraid that none of the reasons which have been placed before the Council commend themselves to me. On the ground that there seems to be no danger in delay, I would join the opposition to the motion."

The Hon'ble Mr. Forbes then withdrew his motion not to refer the Bill to a Select Committee and, with the permission of His Excellency the President, moved that the Bill be referred to a Select Committee consisting of the following members:—The Hon'ble Mr. Hammick, the Hon'ble the Advocate-General, the Hon'ble Mr. Narasimheswara Sarma, the Hon'ble Mr. Tyagaraya Chetti and the Mover.

The Hon'ble Mr. Hammick seconded the motion, which was put and agreed to.

The Council then adjourned *sine die*.
